

# Toledo do Brasil

Indústria de Balanças Ltda.

## Visitor's Guide

Welcome!

## OUR HISTORY

Toledo do Brasil Indústria de Balanças (Scales Industry) Ltda. was founded in 1956, with the purchase of a small scale factory and the absorption of Toledo Scale Company's Representation in Brazil, a company originally from Ohio (USA) and created in 1901.

In 1988, Brazilian entrepreneurs, representatives of Toledo Scale in Brazil, bought Toledo do Brasil. Since then, the company has become national, private, and independent.

Today, Toledo do Brasil has a factory in São Bernardo do Campo - SP, with a built area of 21,430 sqm (m<sup>2</sup>) on a plot of 62,643 sqm (m<sup>2</sup>), 20 branches, and hundreds of representatives throughout the country.

## WHO WE ARE

Toledo do Brasil is a leader in the weighing area in the country

It aims at building long-term relationships based on professional ethics.

We are committed to the success of each of our customers, as we believe that their growth will also be ours, of our employees, our business partners, and our external providers.

On an ongoing basis, Toledo do Brasil invests in research, development, design, manufacturing, service, technical support, and services to meet the most varied weighing needs, including process automation and associated services.

# INTEGRATED MANAGEMENT SYSTEM

## POLICY

Satisfy customers' needs by providing solutions through quality products and services.

Foster the commitment to continuous improvement, in the use of the organization's inputs and resources; comply with relevant legislation; protect the environment; consult and count on employees' participation; operate ethically and within safe and healthy conditions, eliminating risks and reducing health and occupational hazards.

Create value for customers, external providers, business partners, employees, investors, and society.

Paulo Haegler  
CEO

## MISSION

Provide solutions – products and services – that meet the needs of weighing, cubage, cold slicing, and electronic labeling, with or without management and automation, allowing customers to operate at the lowest cost of ownership, creating value for them, for Toledo do Brasil, its employees, investors, business partners, external providers, and for society as a whole.

## VISION

Go on being the leading company in the Brazilian market of weighing, cubage, cold slicing and electronic labeling, meeting the needs of customers, serving quality solutions, and being progressively more efficient and profitable.

## CERTIFICATIONS

Toledo do Brasil's Integrated Management System meets the requirements of ISO 9001, ISO 14001, ISO 45001, and ISO/IEC 17025.

## ETHICS

Toledo do Brasil's operations and the manner of conduct of its business with its stakeholders comply with the determinations set out in its Integrity Manual.

## SOCIAL COMMITMENT

Toledo do Brasil practices social responsibility, complying with laws and setting out internal norms and policies that govern its activities.

Our partners and service providers must also be aligned with this conduct.

We are committed to the communities where we operate.

At work, we must treat everyone with justice and honesty, always concerned with safety and well-being and the protection of the environment.

Toledo do Brasil sets out accounting procedures and other control standards to ensure that all its assets are protected, properly used, and that financial records are accurate and reliable.

## SAFETY RECOMMENDATIONS

Access to the premises is only allowed if the visitor is accompanied by the person responsible for the visit;

In the flagged areas, it is mandatory to wear PPE (ear protectors, safety goggles, safety shoes, etc.);
